## Sharing who we are...

our knowledge, our contexts, our innovations

**Saturday, the 28 May 2022**  
**9.30am to 11.30am**

*Kihikihi is the Māori name for the loudest insect in the world.*

*However, is it pronounced  
"cí - cay - da" or "cí - caa - da"?!*

*We couldn't agree. Playfully and intuitively we all agreed on kihikihi, we all agreed on the NZSL sign, we even agreed on the Korean name, mammy. The insect that has a name in every culture brought us together and united us in ours.*
